In the submission system, choose the section "Special Issue 2027".

**Publication: Fall 2027.**

# About this call

Mises Journal (e-ISSN 2594-9187) is the international forum for the discussion of libertarian ideas in the Southern Hemisphere. We provide an interdisciplinary outlet for researchers interested in the Austro-libertarian views of law, economics and philosophy. This special issue builds on an idea voiced by F. A. Hayek:

> *"Nobody can be a great economist who is only an economist — and I am even tempted to add that the economist who is only an economist is likely to become a nuisance if not a positive danger."*
>
> — F. A. Hayek, "The Dilemma of Specialization" (1956).

The issue provides an avenue for scholars to discuss the broader impact of economic intervention upon culture, broadly understood. This topic is at the core of recent discussions within the Austrian School, classical liberal traditions and related disciplines (Ammous, 2021; Degner, 2025; Foss et al., 2026; Hülsmann, 2022; Klein et al., 2022; Sinnicks & Bernacchio, 2026), and much remains to be explored.

# Topics of interest

01 **The influence of monetary, fiscal and regulatory intervention on culture and society, including but not limited to:**
Health outcomes · Educational attainment · Family formation · Violence and security · Fertility choices · Deaths of despair · Arts, literature and recreation

02 Philosophical grounds of the problems of interventionism in a country or region

03 Law and legislative approaches to allegedly pro-family policy

04 Self-regulation vs. market-based regulation

05 Political philosophy and theory

06 The culture of entrepreneurship and productivity

07 **Issues of economic history and culture, describing the roles of:**
Monetary policy · Economic development · Employment · Economic crises · Capital formation · Entrepreneurship · Business cycles

08 Debates and discussions between different approaches to governance

# Special issue submissions

We follow the Mises Journal's submission guidelines, available on our website. All submissions go through the regular peer-review process and should be relevant to an international and multidisciplinary readership. Manuscripts presented at conferences but not yet published in journals are welcome.

WHEN SUBMITTING, CHOOSE THE SECTION
**Special Issue 2027**

## Regular submissions

If your working paper does not fit this special issue, we encourage you to submit it as a regular paper: the journal receives submissions on a rolling basis.
